Dear Dan,

The attachment includes the letter sent by our SWMP to Bridgeton saying okeedoke to using the coal combustion by-products to fill depressions. It references and gives approval to two letters addressed from Bridgeton to SWMP dated March 31. Shawn and I haven't seen these letters from Bridgeton (or don't recall it) ...so we'll have to track them down and will get copies of them to you as well.

Per our discussion....

Shawn will be talking to SWMP more on Monday about the material management proposal....and we'll get back to you ASAP after with our questions for Bridgeton.

Have a good weekend,

Eric
